INDEPENDENT AUDITOR'S REPORT

To the Supervisor and the Members of the Board of Trustees
Township of St. Clair, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund, of the Township of St. Clair, Illinois as of and for the year ended March 31, 2019, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Supervisor and the Members of the Board of Trustees
Township of St. Clair, Illinois
Page Two

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Township of St. Clair, Illinois, as of March 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management discussion and analysis information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the required supplementary information on pages 38-49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Non-Cash Investing Capital and Financial Activities:

During this past year, the Sewerage fund received no non-cash capital contributions from developers consisting of sewer infrastructure.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

The Township of St. Clair, Illinois (the "Township") provides the following services: general government, general assistance, recreation, road maintenance, and sewerage.

The accounting and reporting policies of the Township relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled <u>Audits of State and Local Governmental Units</u> and by the Financial Accounting Standards Board (when applicable). The more significant accounting policies of the Township are described below.

B. Financial Reporting Entity

The Township's basic financial statements include the accounts of all Township operations. The criteria for including organizations as component units within the Township reporting entity, as set forth in Section 2100 of GASB's — <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, include whether:

- ☐ the organization is legally separate (can sue and be sued in their own name)
- □ the Township holds the corporate powers of the organization
- □ the Township appoints a voting majority of the organization's board
- □ the Township is able to impose its will on the organization
- □ the organization has the potential to impose a financial benefit/burden on the Township
- □ there is fiscal dependency by the organization on the Township

Based on the aforementioned criteria, the St. Clair Road District is a blended component unit. The St. Clair Road District is responsible for the maintenance and construction of all the roads within the Township.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Government activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The statement of activities demonstrates the degree to which the direct expenses of a given function or identifiable activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. The Township does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or identifiable activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or identifiable activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

D. Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are reported only when payment is due.

Replacement taxes, other taxes, licenses, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of the special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The Township reports the following major governmental funds:

General Fund

General fund is the main operating fund of the Township. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from the General fund.

General Assistance Fund

General Assistance fund is used to account for the funds received and expended for the payment of assistance to various individuals.

Parks Maintenance Fund

Parks Maintenance fund is used to account for funds received and expended for maintenance and improvements to parks throughout the Township.

Road and Bridge Fund

Road and Bridge fund is used to account for funds received and expended for the payment of road maintenance, supplies, and improvements.

Permanent Road Fund

Permanent Road fund is used to account for funds received and expended for the construction, renovation, expansion, and major improvement of various roads and bridges.

The Township reports the following proprietary fund:

Sewerage Fund

Sewerage fund is used to account for the provision of sewer service to the residents of the Township. Activities of the fund include administration, operations, and maintenance of the sewer system and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for sewer debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and internal service funds are charges to customers for sales and services provided. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Cash and Cash Equivalents

The Township considers all investment instruments (including restricted assets) purchased with a maturity of three months or less to be cash equivalents.

The Township pools cash resources to improve cash management. A cash pool is maintained for the Township governmental funds and a cash pool is maintained for the Road District governmental funds. Each pool consists of a checking account and an interest bearing sweep account. Individual fund integrity is maintained through the accounting records. Interest earned from the pooled cash is allocated monthly to each fund based on the ending cash balance.

F. Allowance for Doubtful Accounts

At March 31, 2019, the allowance for doubtful accounts was \$40,000 for the Sewerage enterprise fund accounts receivable.

G. Inventories

Inventory is valued at the lower of cost or net realizable value using the first-in/first-out (FIFO) method.

Inventory in governmental funds consist of expendable supplies held for future consumption. The cost is recorded as an expense as inventory items are consumed (consumption method). Inventory for the Proprietary fund is considered immaterial and is therefore expensed when purchased.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

H. Capital Assets and Depreciation

The Township's property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items acquired after April 1, 2004), with useful lives of more than one year are reported in the government-wide financial statements. Purchased or constructed assets are recorded at historical cost. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is included in net income.

The estimated useful lives and capitalization threshold for depreciable assets are as follows:

	USEFUL LIFE (CAPITA	ALIZATION
	(YEARS)	THR	ESHOLD
Land Improvements	15-20	\$	10,000
Buildings and Improvements	20-40		10,000
Furniture, Fixtures, and Equipment	5-10		2,500
Infrastructure	10		50,000
Sewerage System	25-50		50,000

I. Capitalized Interest

Interest costs are capitalized when incurred by Proprietary funds on debt where proceeds were used to finance the construction of assets. Interest earned on proceeds of tax-exempt borrowing arrangements restricted to the acquisition of qualifying assets is offset against interest costs in determining the amount to be capitalized. No interest was capitalized for financed construction activities during the year ended March 31, 2019.

J. Long-Term Debt, Deferred Debt Expense, and Bond Discounts/Premiums

In the government-wide and business-type activities proprietary funds, outstanding debt is reported as liabilities. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

The governmental funds financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs are reported as expenditures.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

K. Compensated Absences

The Township's policies regarding vacation time permit employees to accumulate earned, but unused vacation leave. The liability for these compensated absences is recorded in the statement of net position.

L. <u>Deferred Inflows and Outflows of Resources</u>

In addition to assets, the statement of net position and or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. the Township reports deferred outflows of resources related to pension and other postemployment benefits (OPEB) transactions.

In addition to liabilities, the statement of financial position and or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Township reports deferred inflows of resources related to pension and OPEB transactions.

M. Fund Equity

Beginning with fiscal year 2012, the Township implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance - amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Restricted Fund Balance - amounts constrained to specific purpose by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Committed Fund Balance - amounts constrained to specific purposes by the Township itself, using its highest level of decision-making authority (i.e., Board of Trustees), to be reported as committed, amounts cannot be used for any other purpose unless the Township takes the same highest level action to remove or change the constraint.

Assigned Fund Balance - amounts the Township intends to use for a specific purpose. Intent can be expressed by the Board of Trustees or by an official or body to which the Board of Trustees delegates the authority.

Unassigned Fund Balance - amounts that are available for any purpose. Positive amounts are reported only in the general fund. Negative unassigned fund balances may be reported in all funds.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Township considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Township considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assigned actions.

Net Position

Net positions represent the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources on the government-wide and proprietary fund financial statements. Net positions are classified in the following categories:

- 1. Net investment in capital assets This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets.
- 2. Restricted net position This amount is restricted by creditors, grantors, contributors, or laws or regulations of other governments.
- 3. Unrestricted net position This amount is the net position that does not meet the definition of "net investment in capital assets" or "restricted net position".

The Township applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Internal and Interfund Balances and Activities

In the process of aggregating the financial information for the government-wide statement of net position and statement of activities, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified.

Fund Financial Statements

Interfund activity, if any, within and among the governmental fund categories is reported as follows in the fund financial statements:

- 1. Interfund loans Amounts provided with a requirement for repayment are reported as interfund receivables and payables.
- 2. Interfund services Sales or purchases of goods and services between funds are reported as revenues and expenditures/expenses.
- 3. Interfund reimbursements Repayments from funds responsible for certain expenditures/expenses to the funds that initially paid for them are not reported as reimbursements, but as adjustments to expenditures/expenses in the respective funds.
- 4. Interfund transfers Flow of assets from one fund to another where repayment is not expected are reported as transfers in and out.

Government - Wide Financial Statements

Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements as follows:

- 1. Internal balances Amounts reported in the fund financial statements as interfund receivables and payables are eliminated in the governmental activities columns of the statement of net position, except for the residual amounts due between governmental activities, which are reported as internal balances.
- 2. Internal activities Amounts reported as interfund transfers in the fund financial statements are eliminated in the government-wide statement of activities. The effects of interfund services between funds, if any, are not eliminated in the statement of activities.

NOTE 2. CASH, CASH EQUIVALENTS, AND CERTIFICATES OF DEPOSIT

Illinois law states that investments of cash funds may be made in bonds, notes, certificates of indebtedness, treasury bills, or other securities which are guaranteed by the full faith and credit of the United States of America as to principal and interest. The Township may also invest in interest bearing savings accounts, certificates of deposit, or time deposits which are insured by federal insurance. Also, the Township may invest with Public Treasurer's Investment Pool administered by the Illinois State Treasurer.

The Township has adopted a formal written investment policy in accordance with the Public Funds Investment Act of the State of Illinois.

The Township's cash and cash equivalents at March 31, 2019 consist of the following:

	CAR	RYING		BANK
	AM	OUNT		VALUE
Cash on Hand	\$	200	\$	200
Demand Deposits With Banks:				
Bank of Edwardsville	2,1	73,063		2,324,409
IL National Bank		2,341		1,000
Bank of Springfield	2,5	67,958	2,567,958	
CitiBank		1,243		1,243
Sub-Total - Deposits With Banks	4,7	44,805		4,894,810
External Investment Pool:				
The Illinois Funds - Money Market Fund		44,370		44,370
	<u>\$ 4,7</u>	89,175	\$	4,939,180

As of March 31, 2019, the Township had the following certificates of deposit:

CERTIFICATES OF DEPOSIT	MATURITY	VALUE
Synchrony Bank	4/15/2019	\$ 250,000
Middlefield Banking Co.	9/30/2019	250,000
American B&T	4/11/2019	250,000
Texas Capital Bank	5/30/2019	250,000
Bank United	7/17/2019	249,973
Mega Bank	6/19/2019	249,905
Bank of America	4/11/2019	248,751
Bremer Bank	4/11/2019	 1,501
Sub-Total - Brokered Certificates of Deposit		 1,750,130
Providence Bank	9/30/2019	 250,000
Sub-Total - Bank-Held Certificates of Deposit		 250,000
		\$ 2,000,130

NOTE 2. CASH, CASH EQUIVALENTS, AND CERTIFICATES OF DEPOSIT (CONT'D)

The Illinois Funds is an external investment pool administered by the Illinois State Treasurer. Illinois National Bank serves as custodian for The Illinois Funds. The fair value of the Township's investment in The Illinois Funds is the same as the value of the pool shares. Although not subject to direct regulatory oversight, The Illinois Funds is administered in accordance with the provisions of Illinois statute 30 ILCS 235 "Public Funds Investment Act".

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Township's investment policy requires deposits with banks that exceed the amount insured by FDIC insurance protection be collateralized. Also, investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs. The Illinois Funds - Money Market Fund is rated AAA by Standard & Poor's. The rating signifies an extremely strong capacity to maintain principal stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks.

Custodial Credit Risk (Deposits with Banks) - Custodial credit risk is the risk that in the event of a bank failure, the Township's deposits may not be returned to it. At March 31, 2019, the reported amount on the Township's deposits was \$6,789,105 and the bank balance was \$6,938,858. Of the bank balance, \$2,796,491 was covered by federal depository insurance and \$4,142,367 was covered by collateral held by the pledging financial institution.

Custodial Credit Risk (Other Investments) - Custodial credit risk is the risk that in the event of a failure of the counterparty to a transaction, the Township will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Investments in external investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the Township's investment in a single issuer. The Township's investment policy places no limit on the amount they may invest in any one issuer.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to change in market interest rates. The Township's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 3. FAIR VALUE MEASUREMENT

Certificates of Deposit that are participating interest-earning investment contracts are subject to GASB 72, Fair Value Measurement and Application. Fair value measurements are categorized based

NOTE 3. FAIR VALUE MEASUREMENT (CONT'D)

on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs: Level 3 inputs are significant unobservable inputs.

The following table presents the fair value hierarchy for the balances of the investments of the Township measured at fair value on a recurring basis as of March 31, 2019:

		FAIR VALUE MEASUREMENT USING:						
		QUOTED PRICES						
		IN ACTIVE	SIGNIFICANT					
		MARKETS FOR	OTHER	SIGNIFICANT				
		IDENTICAL	OBSERVABLE	UNOBSERVABLE				
		ASSETS	INPUTS	INPUTS				
INVESTMENT BY FAIR VALUE	AMOUNT	(LEVEL 1)	(LEVEL 2)	(LEVEL 3)				
Brokered Certificate of Deposit	\$ 1,750,130	\$ -	\$ 1,750,130	\$ -				

Level 1 Fair Value Measurements

The fair value for investments in this category is based on quoted prices in active markets for identical assets.

Level 2 Fair Value Measurements

The fair value of the brokered certificates of deposit are determined by reference to quoted market prices for similar investments, yield curves, and other relevant information.

Level 3 Fair Value Measurements

The fair value for investments in this category is based on unobservable inputs.

NOTE 4. CAPITAL ASSETS

Capital asset activity for the year ended March 31, 2019, was as follows:

	BALA	NCE AT				BALA	NCE AT

The Township has debt service requirements at March 31, 2019, on notes payable as follows:

State of Illinois Loan Pursuant to the Environmental Protection Act

On June 28, 2011, the Township entered into a loan agreement with the Illinois Environmental Protection Agency (IEPA) for the construction of an ultraviolet disinfection system. The loan agreement provided for a maximum loan of \$410,079, at an interest rate of 1.25 percent. The final loan amount was \$306,415. The loan agreement requires semi-annual principal and interest payments due on January 20th and July 20th. The note matures on January 20, 2033. The debt is repaid by the Sewerage Enterprise fund.

NOTE 5. LONG-TERM DEBT AND OTHER OBLIGATIONS (CONT'D)

The following is a schedule of maturities on this loan as of March 31, 2019:

PAYABLE DURING THE	NOTE PAYABLE - IEPA					
YEAR ENDED		TOTAL	PF	RINCIPAL	IN	TEREST
March 31, 2020	\$	17,755	\$	14,959	\$	2,796
March 31, 2021		17,755		15,147		2,608
March 31, 2022		17,755		15,337		2,418
March 31, 2023		17,755		15,529		2,226
March 31, 2024		17,755		15,724		2,031
March 31, 2025 - March 31, 2029		88,776		81,627		7,149
March 31, 2030 - March 31, 2033		71,021		69,065		1,956
	<u>\$</u>	248,572	<u>\$</u>	227,388	\$	21,184

NOTE 6. PROPERTY TAX

Property taxes attach as an enforceable lien on property as of January 1. The Township and the Road district levied for 2017 property taxes on November 21, 2017. Billing and collection of property taxes is performed by the St. Clair County government. Property taxes are recorded as receivables and deferred revenues at the time the tax levy is billed. Property tax revenue is recorded when it is collected. This includes property taxes collected within 60 days after year end. No allowance for delinquent taxes has been provided as property taxes recognized are considered to be fully collectible. 2017 property taxes were payable in two installments; June 21, 2018 and August 21, 2018.

NOTE 7. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

General Information about the Pension Plan

Plan Description - The Township's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Township's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

NOTE 7. RETIREMENT FUND COMMITMENTS (CONT'D)

Benefits Provided - Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms - As of December 31, 2018, the following employees were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	13
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	2
Active Plan Members	14
Total	29

Contributions - As set by statute, the Township's Regular Plan Members are required to contribute 4.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Township's annual contribution rate for calendar year 2018 and 2019 was 14.04 percent and 12.49 percent, respectively. For the fiscal year ended March 31, 2019, the Township contributed \$108,847 to the plan. The Township also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level.

NOTE 7. RETIREMENT FUND COMMITMENTS (CONT'D)

Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

<u>Pension Liabilities</u>, <u>Pension Expense</u>, and <u>Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

The Township's net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Changes in the Township's net pension liability for the year ended December 31, 2018 were as follows:

	TOTAL PENSION LIABILITY (A)	PLAN FIDUCIARY NET POSITION (B)	NET PENSION LIABILITY/ (ASSET) (A) - (B)
Balances at December 31, 2017	\$ 3,983,620	\$ 3,516,527	\$ 467,093

Total Deferred Amounts Related to Pensions	\$	534,457	\$	277,799

Amounts realized as deferred outflows of resources and deferred inflows of resources related to pensions will be realized in pension expense in future periods as follows:

	NET
YEAR ENDING	DEFERRED
DECEMBER 31,	OUTFLOWS
2019	\$ 58,206
2020	29,323
2021	53,725
2022	89,364
Thereafter	
Total	\$ 230,618

Actuarial Assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The *Inflation Rate* was assumed to be 2.50 percent.
- Salary Increases were expected to be 3.39 percent to 14.25 percent, including inflation.
- The Investment Rate of Return was assumed to be 7.25 percent.
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.
- For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.

NOTE 7. RETIREMENT FUND COMMITMENTS (CONT'D)

- For disabled retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for nondisabled lives.
- For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The *long-term expected rate of return* on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2018:

		PROJECTED RE	TURNS/RISK
	TARGET	ONE YEAR	TEN YEAR
ASSET CLASS	ALLOCATION	ARITHMETIC	GEOMETRIC
Equities	37.00 %	8.50 %	7.15 %
International Equities	18.00	9.20	7.25
Fixed Income	28.00	3.75	3.75
Real Estate	9.00	7.30	6.25
Alternatives	7.00		
Private Equity		12.40	8.50
Hedge Funds		5.75	5.50
Commodities		4.75	3.20
Cash Equivalents	1.00	2.50	2.50
Total	100.00 %		

Single Discount Rate - A Single Discount Rate of 7.25 percent was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

NOTE 7. RETIREMENT FUND COMMITMENTS (CONT'D)

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25 percent, the municipal bond rate is 3.71 percent, and the resulting single discount rate is 7.25 percent.

Sensitivity of the Township's Net Pension Liability to Changes in the Discount Rate - The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25 percent as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1 percent lower or 1 percent higher:

	CURRENT		
	1% DECREASE	DISCOUNT	1% INCREASE
	(6.25%)	RATE (7.25%)	(8.25%)
Net Pension Liability/(Asset)	\$ 1,433,815	\$ 934,859	\$ 525,588

NOTE 8. OTHER POST-EMPLOYMENT BENEFITS

Plan Description

In addition to providing the pension benefits described, the Township provides post-employment health insurance benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions, and employer contributions are governed by the Township and can be amended through a resolution passed by the Board of Trustees.

Benefits Provided

The Township's retiree medical plan provides continuation of employer subsidized health coverage (for the retiree and their dependents, if any) upon the retirement from the Township after meeting the age and service requirements for retirement. For retirees with at least eight years of service, the Township pays for one year of medical coverage for each four years of employment not to exceed a maximum of five years. Thereafter, retirees pay 100% of the cost (blended) of coverage. All coverage ends when retiree becomes eligible for Medicare.

Employees Covered by Benefit Terms

As of March 31, 2019, the following employees were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	-
Inactive Plan Participants Entitled to but Not Yet Receiving Benefits	-
Active Plan Participants	12
Total	12

NOTE 8. OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

Net OPEB Liability

The Township's net OPEB liability was measured as of March 31, 2019. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of March 31, 2019 with a measurement date as of March 31, 2019.

Actuarial Assumptions

- The Actuarial Cost Method was Entry Age Normal.
- The Discount (Interest) Rate used was 3.89% and 3.79% as of April 1, 2018 and March 31, 2019, respectively.
- The Salary Increase (Inflation) Rate used was 3.50% annually.
- The Monthly Health Plan Premium Costs (Blended) used were \$1,084 and \$2,081 for employee only and employee and spouse, respectively.
- Mortality rates were according to RP-2014 base rates projected to 2019, using scale MP-2018. No additional provisions were included for mortality improvements beyond 2019.
- Participation was assumed to be 100%.
- For spouses, 50% of all employees were assumed to have spouses. All spouses were assumed to be the same age as the participant.
- Healthcare Cost Inflation Rates used were 8.5% for 2019, gradually decreasing to an ultimate rate of 4.5% for 2025 and beyond.

Discount Rate

A Discount Rate of 3.79% was used to measure the total OPEB liability. The plan is not funded with any contributions, therefore, the discount rate for calculating the total OPEB liability is equal to the 20-year municipal bond rate.

NOTE 8. OTHER POST-EMPLOYMENT BENEFITS (CONT'D)

NOTE 9. COLLECTIVE BARGAINING AGREEMENTS

The Township's clerical and sewer department employees are covered under collective bargaining agreements with the International Union of Operating Engineers Local No. 148. This agreement is effective to April 30, 2020.

The Township's road employees are covered under collective bargaining agreements with the Laborer's International Union of North America Local No. 459. This agreement is effective to March 31, 2022.

NOTE 10. COMMITMENTS

Wastewater Treatment Contracts

Village of Swansea

On June 23, 2014 the Township entered into an agreement with the Village of Swansea in which the Village agrees to accept residential and commercial sewage from Township residents that utilize the Village system.

Effective March 1, 2015 the Village of Swansea will bill these Township residents for this service at a rate of 1.3 times the Swansea resident rate. In addition, the Village of Swansea will bill the affected residents an additional \$7.34 which will be paid to the Township for upkeep of their sewer lines.

On May 24, 2016, the Township amended the transport fee to \$4.00 per month, which was previously \$7.34 per month.

The term of the agreement is for 25 years commencing on March 1, 2015. In fiscal year ending March 31, 2019, the Township received \$121,134 and had an outstanding receivable of \$24,667 from the Village of Swansea for transport fees.

City of Belleville

The Township and the City of Belleville entered into a sewerage contract on November 19, 1973. The contract is for forty years and shall continue for successive ten-year periods, unless either party serves the other with written notice five years prior to their intended termination. The residential and commercial rates established by the contract to be paid by the Township to the City of Belleville are subject to modification at the end of each three-year period from the effective date of the contract. The current residential monthly rate in effect is \$14.72 per single family living unit. The current commercial monthly rate in effect is \$2.18 per 1,000 gallons of water as metered through the commercial establishment's water meter. The Township's annual expense for the year ended March 31, 2019 was \$519,119. Currently, the Township and City of Belleville are negotiating on changing the terms of the contract for future years.

NOTE 10. COMMITMENTS (CONT'D)

Construction and Related Contracts

Subsequent to March 31, 2019, the Township entered into additional construction related contracts for road improvements of approximately \$549,990.

NOTE 11. RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township participates in the Illinois Counties Risk Management Trust and Illinois Public Risk Fund, public entity risk pools, currently operating as a common risk management and insurance program. Whenever the funds determine that the assets of the funds are less than the reserves which would be required to be maintained by the funds, then the funds shall assess each public agency member the amount necessary to correct the deficiency. Each assessment will be prorated based upon the agency's annual contributions, provided that, in no event shall the annual total of any assessment exceed 10 percent of the gross annual premium or contributions to the funds during the most recent fiscal year. The Township's gross annual premium for March 31, 2019 was \$145,642. In the opinion of Township officials, no additional liability will be incurred.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years. There were no significant reductions in insurance coverage from the prior year.

NOTE 12. CONTINGENCIES

Grants

Grants require the fulfillment of certain conditions as set forth in the grant instrument. Failure to fulfill the conditions could result in the return of the funds to grantors. Although this is a possibility, the Township deems the contingency remote, since by accepting the grants and their terms, it has accommodated the objectives of the Township to the provision of the grant.

Legal Claims

Various legal claims arise from time to time in the normal course of business which, in the opinion of management, will have no material effect on the Township's financial statements.

NOTE 13. PRIOR PERIOD ADJUSTMENT

During the current fiscal year, the Township adopted Statement No. 75, Accounting and Financial Reporting for post-employment Benefits other than Pensions. This statement established standards for the Township to account for and disclose the other post-employment benefit liability, other post-

NOTE 13. PRIOR PERIOD ADJUSTMENT (CONT'D)

employment benefit expense, and other information associated with providing retirement benefits to their employees (and former employees) on their basic financial statements. The statement also requires enhanced note disclosures and schedules of required supplementary information that will be presented by the other post-employment benefits that are within the scope. In addition, the Township will also be recognizing a net other post-employment benefit liability (asset), deferred outflows of resources, and deferred inflows of resources related to the Township's other post-employment benefit liability. In the Government Wide Financial Statements, a prior period adjustment of \$39,675 was necessary for the Governmental Activities. The Beginning Net Position changed from \$3,028,601 to \$3,068,296. In the Proprietary Fund, a prior period adjustment of \$64,001 was necessary. The Beginning Net Position changed from \$11,893,392 to \$11,957,393.

TOWNSHIP OF ST. CLAIR, ILLINOIS NOTES TO REQUIRED SUPPLEMENTARY INFORMATION MARCH 31, 2019

NOTE 1. BUDGETARY CONTROL

The Board of Trustees is required to adopt an annual budget and appropriation ordinance for the Township and Road District. The budgets are prepared utilizing the cash basis of accounting. The Township follows these procedures in establishing budgetary data reflected in the financial statements:

- a. The Township Supervisor prepares a tentative budget and appropriation ordinance for the Township and the Highway Commissioner prepares a tentative budget and appropriation ordinance for the Township Road District.
- b. A public notice of the tentative budget and appropriation ordinances is given at least 30 days prior to the public hearing and final action.
- c. A public hearing is held to receive taxpayer comments.
- d. The budget and appropriation ordinances are legally adopted by the Board of Trustees.
- e. The budget is incorporated into the accounting records of the Township.

The Board of Trustees is allowed to make transfers between the various expenditure items up to ten percent (10 percent) of the total amount appropriated. The annual appropriations lapse at the end of the fiscal year.

The Township budget and the Road District budget were adopted on March 15, 2018.

The Board of Trustees amended the Township and Road District budgets by approving transfers between expenditure items throughout the year ended March 31, 2019.

TOWNSHIP OF ST. CLAIR, ILLINOIS NOTES TO SCHEDULE OF CONTRIBUTIONS SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE 2018 CONTRIBUTION RATE FOR THE YEAR ENDED MARCH 31, 2019

VALUATION DATE:

Notes Actuarially determined contribution rates are calculated as of December 31

each year, which is 12 months prior to the beginning of the fiscal year in which

contributions are reported.

METHODS AND ASSUMPTIONS USED TO DETERMINE 2018 CONTRIBUTION RATES:

Actuarial Cost Method Aggregate Entry Age Normal

Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period 25-year closed period

Asset Valuation Method 5-year smoothed market; 20% corridor

Wage Growth 3.50% Price Inflation 2.75%

Salary Increases 3.75% to 14.50% including inflation

Investment Rate of Return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition; last updated for the 2014 valuation pursuant to an experience study

of the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully

generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

adjustments to match current IMRF experience.

Other Information:

Notes There were no benefit changes during the year.

See notes to financial statements and independent auditor's report.
