Centennial Park:

- Erosion continues along the creek bank, possibly as a result of heavy consistent rains this spring. Erosion issues will have to be remedied to some extent to preserve investment in trail system and to protect the bridge nearest 161.
- Will explore how to acquire money for stream bank or bottom mitigation.
- Potential to improve trails and mitigate stream bank erosion that is cutting away at trail.
- Clean up around pond and put a plank trail and dock to allow residents to fish easier and make it ADA compliant.

- MEPRD grant application approved by board and will be submitted as soon as MEPRD opens grant period, usually in July. This is the Loop Creek improvements including bathroom and other play equipment. Feel positive about the potential for the grant to be accepted.
- Will also apply for St. Clair Parks Grants Grant later this year.
